Julie Smith
Kinnickinnic River Land Trust
710 N. Main Street, #205
River Falls, WI 54022

Dear Julie,

We are writing to express our support in having the Disability Rights Education Activism Mentorship student organization at the University of Wisconsin River Falls. With the support of DREAM, we have access to students that are willing to advocate for better access to the outdoors as they should be more accessible to all. The KRLT will be making it so that the outdoors is more accessible to all that are involved what which is what DREAM is all about. So in turn DREAM gives full support of helping in any way that we can.

Working within the community for the year 2020-2024 is a goal for DREAM because we are an organization that feels there should be accessible things for everyone whether that is on campus and out in the community. DREAM also has a wide variety of students with disabilities so you have aspects that are not typical from the average person that you would ask on this street that does not have a disability.

Sincerely,

DREAM Executive team

Kathryn Kinneberg <kathryn.kinneberg@my.uwrf.edu>
